

Camp Copass Response to Covid-19

Camp Copass continues to provide an atmosphere conducive to the Holy Spirit working in the lives of our campers. Our staff is excited to serve campers in a safe and healthy environment.

1

PARTNERING WITH CHURCHES

Church leaders should ensure that all campers coming to camp have not had a fever or shown any other symptoms of illness two weeks prior to arriving at camp.

Additionally, face masks are recommended indoors.

2

OUR MEDICAL TEAM

Our Medical Team, working under the support and guidance of our local on-call physician, is here to provide First Aid as needed for our campers and counselors.

Prior to boarding the church bus, the church is responsible for taking the temperature of everyone who heads to camp. If they have a fever of 100 degrees or higher, they will not be allowed to board the bus.

3

HAND SANITATION/ GOOD HYGIENE

At the open assembly to camp, we are going to explain and demonstrate (in a fun/camp way!) good hygiene which will include:

- Respecting personal space
- How to properly cough & sneeze
- How to wash hands and use hand sanitizer to kill germs

There will be hand sanitizer at the entrance to the Dining Hall and the Auditorium and everyone who enters must use hand sanitizer.

Hand washing soap and paper towels will be in every restroom in every building on campus.

4

BUILDING CLEANLINESS

Keeping Camp Copass safe for our campers begins with the staff.

Our motto is: **"If you have time to lean, you need to spray and clean!"**

We will be sanitizing all congregating areas including the Dining Hall and Auditorium thoroughly.

Additional cleaning supplies will be in every building.
